Skills

- Information Security Standards
- Network Penetration testing
- WebApp Penetration testing
- Wireless Penetration testing
- Source Code Security auditing
- Linux Administration
- Windows Administration
- Python
- Java
- Ruby

Languages

- Arabic
- English
- French

About me:

Information security engineer with intensive experience running simulate a full-scale, high-value penetration test and creating written reports, detailing assessment findings and recommendations.

Well-versed in information security and penetration testing standards with strong critical thinking and able to thrive in fast-paced and challenging environments where accuracy and efficiency matter.

Working Experience:

- Since 2016 **Head of Technical Department** DISA: Counter-Terrorism Division
 - ➔ Performed penetration tests on the Defense Intelligence and Security Agency networks and systems regularly to emulate threats and improve computer network defense posture.
 - ➔ Conducted onsite penetration tests from an insider threat perspective.
 - ➔ Administrated web application periodic security assessment on the D.O.D website and internal Web applications.
 - ➔ Developed Android and windows rootkits, documents Trojans, shell codes, cell trackers, a Waterholing system and co-performed social engineering operations including Phishing, Smishing and whaling.
- 2017–2018 **Cyber Security consultant** French Defense: CyberDefense Operation Center
 - ➔ Mission details are Classified.
- 2014–2016 **Information System Administrator** DOD: DHESR
 - ➔ Integrated security appliances and configured security software such as firewall (Pfsense), intrusion detection system (snort) and Security software (Kaspersky Security Center).
 - ➔ Planned and implemented systems backups, coordinating recoveries.
 - ➔ Developed utility programs and shell scripts (e.g., backup, integrity checks).
- 2013–2014 **Network Administrator** DOD: DSCI
 - ➔ Assigned routing protocols (Cisco routers and switches) and configured of authentication and authorization to services.
 - ➔ Monitored networks to ensure security, availability and Information integrity using tools such as Wireshark, Iptraf, Tcpdump and Nagios.
 - ➔ Installed security updates and patches.
- 2013–2014 **Information security and end user awareness instructor** DOD: CIC
 - ➔ Taught information Security, cryptography, Networking and basics programming languages (python, bash, Java).
 - ➔ Organized and conducted Information Security awareness training.
 - ➔ Taught signal intelligence.

Education:

Postgraduate Training

- 03-2019 **Certified Ethical Hacker** EC-Council
 - ✳ Id:ECC6903148725
- 10-2018 **Opensource Intelligence Training** Nato School Oberammergau
- 06-2018 **Penetration Testing Training** BIT

Study

- 2009–2012 **Information Technology** Military Academy
 - 🎓 Master of Engineering
- 2006–2009 **MPCI: Mathematics, Physics, Chemistry and Informatics.** Preparatory School for engineering
 - 🎓 Bachelor of science
- 2006–2002 **Mathematics** 9 Avril 1938 high School
 - 🎓 Baccalaureate
